Please amend the title at page 3, line 5:

Summary of the Invention**SUMMARY**

Please amend the paragraph at page 3, beginning at line 6:

In order to address the above the present inventionexemplary embodiment

provides the concept of a network channel which is used as a waiting channel, wherein members of a group other than a first member join the waiting channel whilst performing an action or process, and then leave the waiting channel once the action or process has been performed. Once all of the members have left the waiting channel the first member of the group then performs an action or process.
